650 Series VoIP Integrated Communications System

The Jacques range of VoIP Master Intercom Stations are robust, user friendly and designed specifically to provide reliable, clear voice communications and public address announcements in high usage environments.

MASTER INTERCOM STATION CONSOLE (IPM-650)

The Jacques **IPM-650** is a desk mounted Master Intercom Station. It is a simple and easy to use unit, providing the user with the ability to call any VoIP device under the control of the system server. It seamlessly integrates into an existing 10/100 Ethernet network and can be conveniently powered locally via an optional power supply or remotely via a Jacques PoE (Power over Ethernet) Adaptor. This slave station is also available in a flush mount option (IPM-650F), ideal for wall or desk mounting.

Product Code – IPM-650 - 50629
IPM-650F - 51094

MASTER INTERCOM STATION with HANDSET (IPM-650H)

The Jacques **IPM-650H** is similar in operation to the IPM-650 but features an optional handset for private conversations. It is simple and easy to use and provides the user with the option of loud speaking or handset use.

Product Code – 50948

PUBLIC ADDRESS MASTER INTERCOM STATION (IPM-650PA)

The Jacques **IPM-650 PA** is specifically designed as a PA Master Station for Jacques VoIP Public Address systems. It is used to direct voice and standard PA announcements to any group or multiple groups of public address speakers throughout a complex. This Master Station has a facility to record your own announcements.

Product Code - 50930

TOUCH SCREEN PC MASTER STATION (PCC-650MTS)

The Jacques **Touch Screen PC Master Intercom Station** is the perfect choice for those projects that require a graphical user interface (GUI) for ease of operation. It comes complete with a VoIP speaker/mic interface for crystal clear voice communication. A mouse driven option is available if a touch screen is not required.

Product Code – 50086
